Leebcor Services, LLC Named Accredited Quality Contractor by ABC, Achieving Elite Status in Safety, Education and Culture

Williamsburg, VA, November 19 — Leebcor Services, LLC of Williamsburg, Va. today announced that it has again been named an Accredited Quality Contractor by Associated Builders and Contractors. Only 229 of the nation's elite merit shop construction contractors earned the credential in 2020.

"Leebcor is humbled and excited to be selected by Associated Builders and Contractors as a 2021 Accredited Quality Contractor. We pride ourselves with delivering quality and safe construction projects for our customers, but also are equally devoted to the professional development of our employees and community engagement," said Operations Technical & Safety Director Pete Garner.

Launched in 1993, ABC's AQC program provides recognition to world-class construction firms that have documented their commitment in five areas:

- Quality
- Safety performance
- Talent management
- Craft and management education
- Community relations, inclusion, diversity and equity

"Accredited Quality Contractors are the types of companies I want to work for and do business with because of the priority placed on world-class safety, culture, workforce development, innovation, diversity and quality," said 2021 ABC National Chair of the Board of Directors Steve Klessig, vice president of architecture and engineering, Keller Inc., Kaukauna, Wisconsin. "Congratulations to the leadership and employees of Leebcor Services, LLC for your daily commitment to corporate and community service; you exemplify the merit shop philosophy and what's best about ABC membership."

In earning the AQC credential, each member company commits to world-class safety by achieving Gold, Platinum or Diamond level in [ABC's STEP Safety Management System](#). Founded more than three decades ago, STEP dramatically improves safety performance among construction industry participants, with top performers achieving incident rates more than [eight times safer than the U.S. Bureau of Labor Statistics industry average](#).

AQC members also take the following pledge:

As an Accredited Quality Contractor, our company is committed to providing our clients with the highest quality construction services, and we care deeply about our employees and the communities in which we build. We are proud to be part of the construction industry and are dedicated to the principles of free enterprise. We commit ourselves to serve our communities and provide our employees with the skills they need to work safely and productively in order to meet the needs of our clients.

AQC is recognized by [Construction Users Roundtable](#), an organization founded by leading construction project owners.

About ABC: Associated Builders and Contractors is a national construction industry trade association established in 1950 that represents more than 21,000 members. Founded on the merit shop philosophy, ABC and its 69 chapters help members develop people, win work and deliver that work safely, ethically and profitably for the betterment of the communities in which ABC and its members work.
